Chicago, Oct. 31 (Special).-The rumor is again affoat

that the Baltimore and Ohio and the Northern Pacific Wisconsin Central system are to combine in the first

but there are now many added reasons for believing

it to be true. The Baltimore and Ohio formerly had a

trackage contract with the Illinois Central. A short

ordered the Baltimore and Ohio off its tracks. A truce

was patched up, but the Illinois Central refused to ex

tend the contract, and the Baltimore and Ohio to-day occupies its Chicago terminal by squatter's right alone.

The whole Illinois Central terminal is in litigation, and

it is by no means certain that it will not be ousted by the Federal Government and the city of Chicago

There is no question, consequently, that the Baltimore

and Ohio must secure another Chicago terminal

This impression is deepened by the fact that adjacent property, suitable for storehouses, has been bought by

the Baltimore and Ohio. As further proof of the consolidation story, it may be mentioned that the high

SARRISON'S LUCK-A HORSE KILLED AND A JOCKEY HURT.

So many special trains were required to carry racepeers to Linden Park yesterday that the numerous sidecas near the gates of the course could not field them, and some were obliged to stop on the main line, dissharge their lends and proceed westward to the next cration. It was a great crowd that turned out, by far the greatest ever seen on a race-track so late in the season. Yet if the weather remain clear and bright, it will be much exceeded by the thousands that will burn out to-day.

The racing was highly interesting throughout, but there were some disappointments. In the first race the bookmakers entertained so respectful an opinion of the Man in the Moon's handicapping that it was easy to get 4 to 1 or better against every starter. Consin s, who seems to possess unlimited quantities of speed when he is in the humor to try, won very easily. leading all the way. The result, however, might have been different if Nellie Bly and Early Blossom had not come in collision and dropped out of the hunt.

A similar benefit will be given by the New-Jersey Jockey Club when the Elizabeth races are resumed. The hospital and asylum will receive from both clubs not less than

\$0,000.

"Bab" was on deck as usual. It was not a clambake, but a strong reminder of one. He treated the guests of the club to some of his famous clam-soup and they left the track heaping blessings on the old gentleman's head.

ALL ENTITLED TO RE-ELECTION

THE EIGHT RENOMINATED NEW YORK RE PUBLICAN REPRESENTATIVES.

THE EXCELLENT RECORD NAME BY EACH-PAITHFUL AND INTELLIGENT WORK DONE BY OLD AND NEW MEMBERS ALIKE.

[BY TELEGRAPH TO THE TRIBUNE.]

Washington, Oct. 31 .- Every Republican Representa tive from the State of New-York who has been renominated deserves to be re-elected by a larger recent session of Congress the writer of this paragraph was a careful observer of the proceedings of the House of Representatives, as he has been of many past seions of that body; and it is only fair to say of Messro Wallace, of the Hid District; Quackenbush, of the XVIIIth District; sanford, of the XXth District, and Congress began last December, that they have shown themselves to be worthy colleagues of such men Sherman, Beiden, Payne and Kelcham, who are their seriors. Every man who has thus been named was not only faithful and attentive to the interests of his district, but evinced an intelligent regard for the publi welfare in general.

Mr. Wallace, although a new member, was assigned to a place on the Committee on Naval Affairs, one of the leading committees of the House, and therefore had a voice in shaping some of the most important legisla-

committee room and on the floor of the House.

Mr. Raines at the very outset was assigned to a place on the Committee on Paclia indironds, a committee the which is called upon to disal with some of the most important and at the same time perplexing questions before Congress. As a member of that committee he performed his duties with keen intelligence; and he was also ever ready with his services on the floor. The veteran General Ketcham, as a member of two of the leading committees of the House-Forden Afairs and Postofiness—did his work thoroughly, as everybod) has known him to do it for many years past.

This bare outline of the work confided to and performed by the eight New York Representatives who have been renominated ought to suffice to show that they have attained places of influence and usefulness which entitle them to a vote of confidence on Tuesday.

Saratoga, N. The inspectors of Electio the name of Francis W. Waterbury, an old and pronent citizen, on the ground that he had resided in the district only fifteen days. As this was the last day of registration, a test case was made of it. T. F. Hamilton, as coansel for Waterbury, went to Baliston by a t noon to-day and moved before Justice Fish for a mandamus, returnable immediately, to compel the inspectors to place the name of Mr. Waterbury on the poll list of the Ninth District. Mr. Hamilton argued that residence in the Assembly district met the requirements of the law and that an election district was nothing more than a polling place. He referred among other things, to the decision of Justice Patierson, of New York City, "that the election district was the Assembly district, while the so-called election district was merely a polling place for the converience of voters." Mr. Hamilton was opposed by James F. swayneck, who appeared as attorney for the Board of Inspectors. Justice Fish denied the mandamus and thus sustained the action of the Board in refusing to register Waterbury's name. There is said to be a large number of similar cases here. district only fifteen days. As this was the last day

DEMOCRATS IN CHICAGO DISHEARTENED. Chicago, Oct. 31 (Special).—The Democrats are discouraged at the outlook in Chicago, and although General Palmer is speaking night and day in this city this week he fails to arouse enthusiasm. A member of the Democratic Executive Committee to-day said: "Our party is in a bad plight, and no one realizes that fact better than the committee. There is absolutely no money in the treasury, and how we are going to pay expenses I cannot see. Lawler was assessed

The recent remarkable serial successes of this magazine,—the famous War Papers, Kennan's Siberian Articles, and the Life of Lincoln,-will be continued in the coming volume (the forty-first) by "The Gold Hunters of California," a series of separate illustrated papers on the gold fever of '49, telling of the discovery of gold, the movement to California (by survivors of various expeditions), life in the mines, the Vigilance Committees (by the chairman of both committees), and many other incidents of that exciting period, including a paper by General Frémont.

The Democrats are denouncing the efforts being nade by the United States Marshal to secure an honest election. In Marshal Hitchcock's office to-day there were a large number of men being enrolled as special deputies, and as soon as commissioned were sworn in by Commissioner Howe. The duties of these special deputies begin at 6 o'clock next Taesday morning and continue for two days. It is calculated that between 400 and 500 men will be commissioned and sworn in by Monday evening.

THE VILLTH NORTH CAROLINA DISTRICT Charleston, N. C., Cet. 21 (special).—The Democracy of the Villth Congressional District is staggering under the hard hits that it has received at the hands of L. R. Fanctile, the Republican nominee. For some time the depublicans held off and did not jet a candidate in the held; but, as Colonel Cowles would not sign the demands of the Farmers' Alliance, and as he is much veaker this time than before, the Republicans decide hat it was a good field to put some telling work upon o Mr. Fancitle was brought out at the eleventh hour and the indications are that he will be elected by arge majority, as the district is close, and Colone lowles, by reason of sickness in his family, has no been able to make a thorough canvass. Mr. Fancith is a man of intelligence and has a host of friends h both parties. The demands of the Alliance have been

MORE LIGHT ON THE TIN CAN QUESTION. The following delicious specimen of muddled lan-guage appeared yesterday in a letter addressed to W. J. Coombs, the Democratic candidate for Congress in the IIId District, sent to him by four thebox manufacturers at the head of whom is ex-Park Commissioner D. M. Somers, of Brooklyn, a strong Democrat:

The consumer, the great majority of whom are poor people, that add something more to their burden, or, oy demial, civilization must take a step backward, as some of the good things of this period are done up in the cars. Exaggerated statements of the numbers and en-

thusia in at the meeting addressed by Carl Schultz were printed yesterday to aid the canvass of Mr. Coombs, but disinterested persons say that the hall was not filled, and incre was no crowd outside. When Mr. Coombs entered he was not recognized.

The Tribune has received several letters from voters of the XIIIth Assembly District, calling attention to the mention rane 'w the list of candidates to be voted for next less than was printed in these columns yesteriary of Frederick S. Gibbs as the 'rigular Republican nominee' for the Assembly in that district. This was done simply because Gibbs was decided by the courts, on a mere behinkality, to be the regular candidate; but the Republican voters of the district, and the State and County Committees, recognize only James A. Cowle, who regularly pocalved the nomination, in spike of a legal decision, as the COWIE, NOT GIBES. THE REGULAR CANDIDATE.
